

Survey Boat Operator

WS-07
WBS-05JOB CONTROLS

1. Under general supervision of the Head, Equipment Pool Section, or other competent authority in charge, which includes verbal outlines and instructions as to the specific objectives and schedules to be met.
2. Applicable provisions of U. S. Coast Guard regulations governing motorboats, collision regulations applicable to the waters over which boat operates, and the safe and proper handling of gasoline motors.

MAJOR DUTIES

1. Operates a gasoline powered twin-screw high speed cabin cruiser of approximately 63 feet in length and powered by two motors of approximately 630 HP each.
 - a. Transports high ranking officers, civilian engineers, and official delegations, including members of Congress and influential personages, on regular and special inspection tours on waterways throughout the District.
 - b. Provides for the general welfare and comfort of passengers, including the furnishing of meals and living quarters.
 - c. Requisitions all necessary supplies for the operation of the boat, and for the serving of meals to personnel aboard on inspection trips.
 - d. Keeps boat and living quarters in clean and orderly condition. Cares for property, including required fire protection, safety, and first aid equipment, necessary for maintenance and operation of the boat. Assumes accountability for such property.
 - e. Keeps a log of operations, and prepares routine weekly report thereon.
 2. Maintains boat and engines in operating condition. Shoots trouble and takes corrective action by making minor operating repairs to engines and Kohler light plant. Depending upon requirements of Maintenance and Repair Depot, assists in the making of overhaul and major repairs to hull and engines.
- Performs other incidental duties as assigned.
